

Scrooge is a decentralized cryptocurrency. SCROOGE is also a reflection token. If you decide to hold SCROOGE instead of sell, please ensure you have USDT Bep20 added as a token, and you will see stable based tokens come into your wallet as you continue to hold. We are a revolutionary social casino and plan on becoming the #1 social casino in the world by caring about YOU, our customers. We are so thankful for you playing in our social casino and want to show you how to buy/sell crypto. After reading this in-depth manual if you have any further questions, please reach out on our FB messenger chat for more information. [FACEBOOK](#)

The most user-friendly wallet to use if you are not familiar with or new to decentralized trading is Trust Wallet:

Below is step by step on how to request a redemption, as well as steps to swap and get your money into Fiat post redemption. This example uses Trust wallet to walk through the steps, other wallets will differ. Ensure that BNB Smart chain is supported if using a different wallet choice!

Request a redemption:

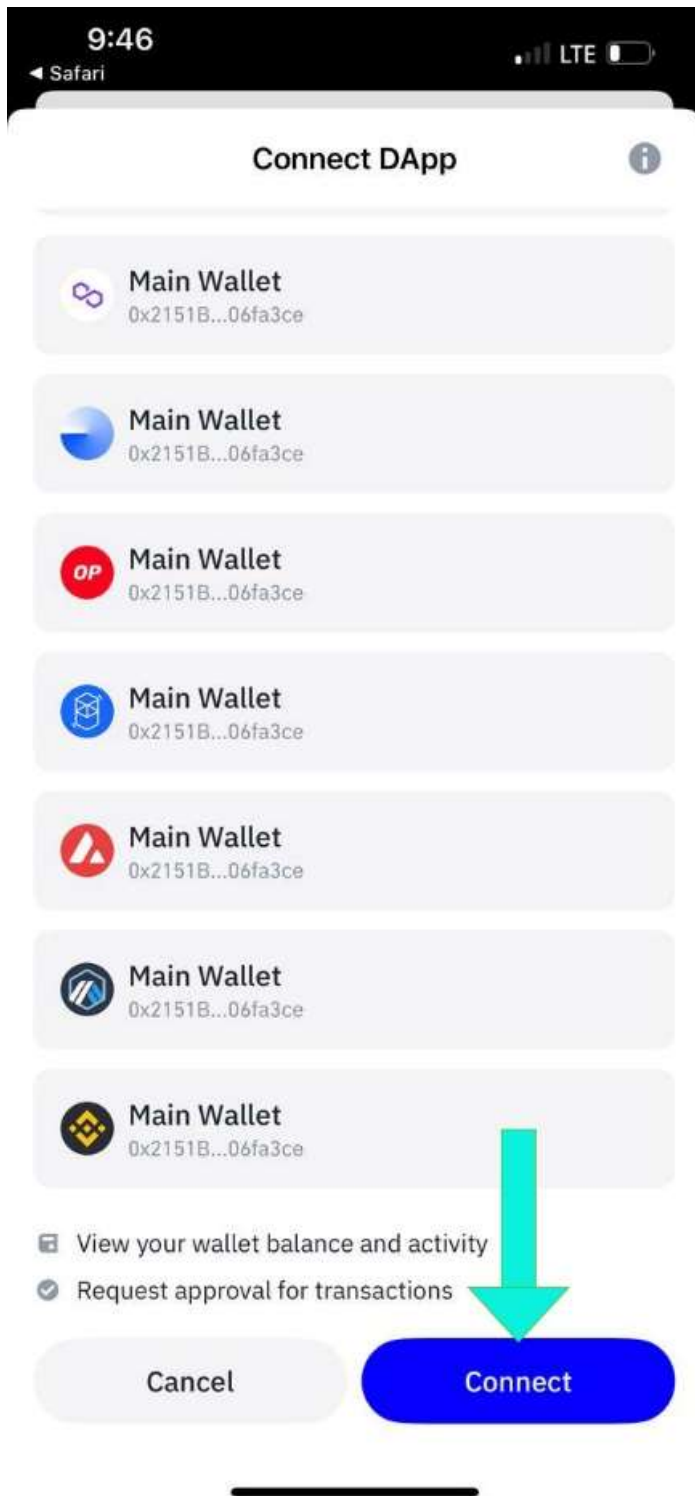

1. Click "Connect Wallet" on redemptions page of casino

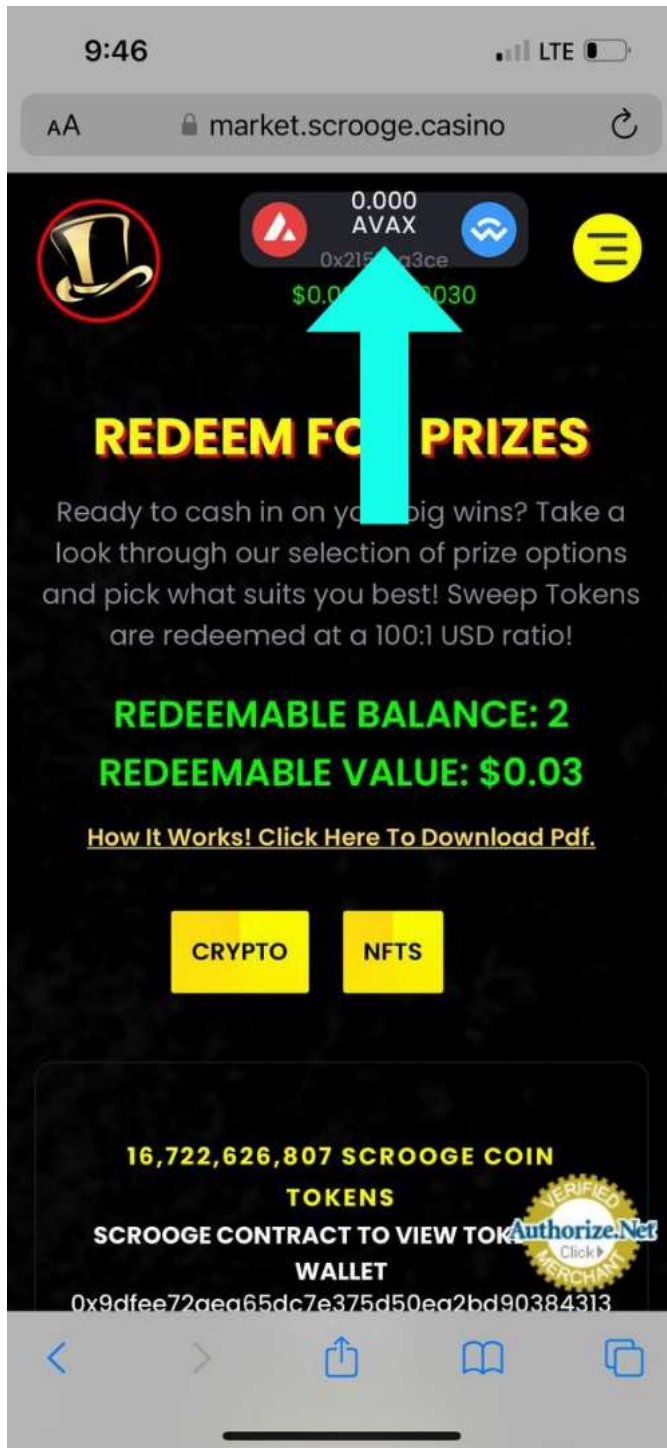

2. Select Trust Wallet option

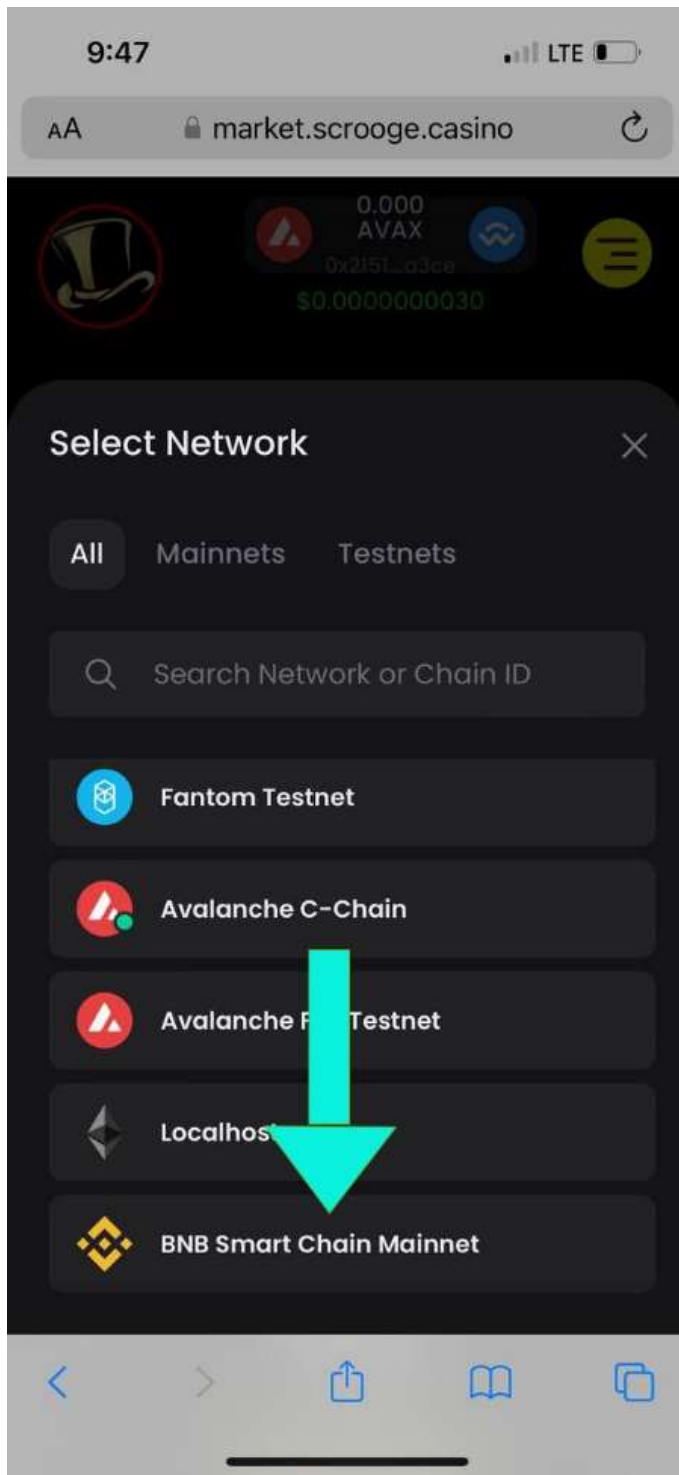

3. Scroll to bottom of wallet and Click "Connect"

4. Click your connected wallet in casino to switch to proper network if not already on BNB

5. Scroll all the way down to select BNB Smart Chain MAIN NET

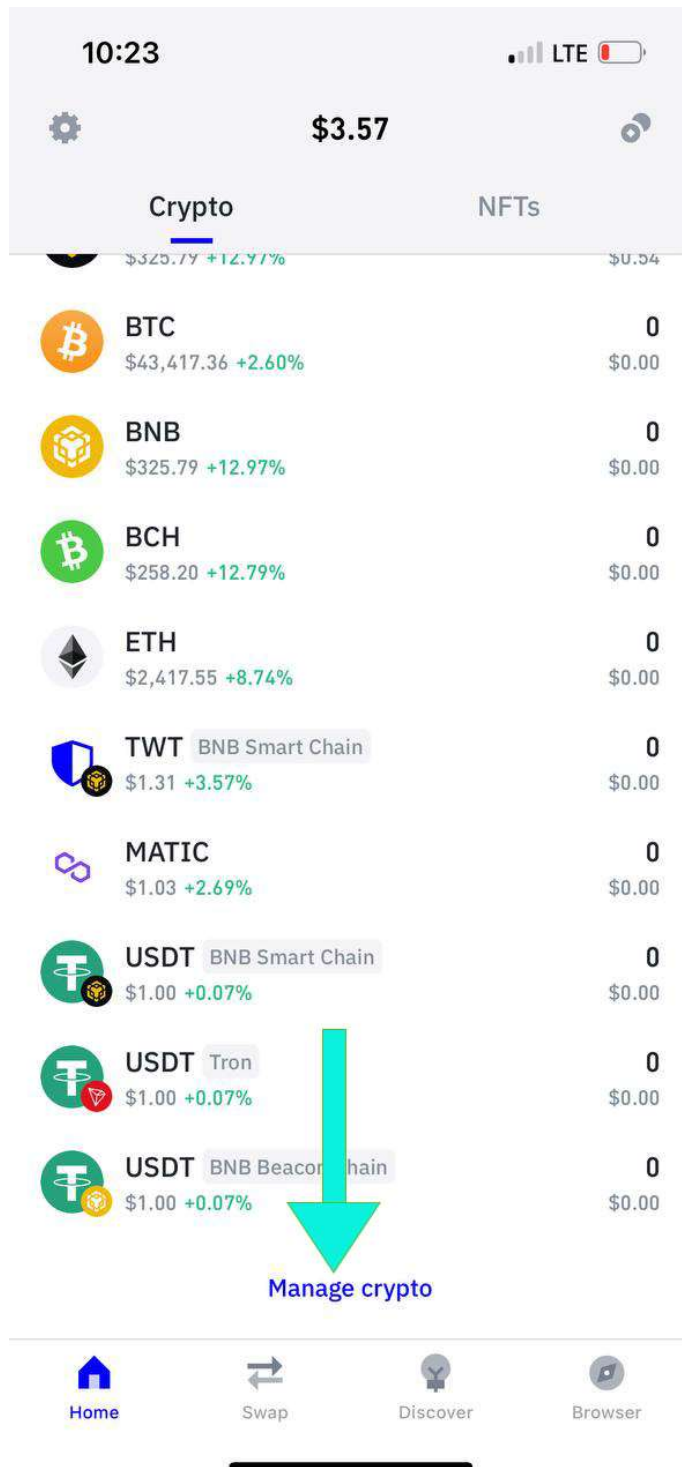

6. Select the Crypto package on casino page that you have the Token value to redeem for, you may select multiple in succession.

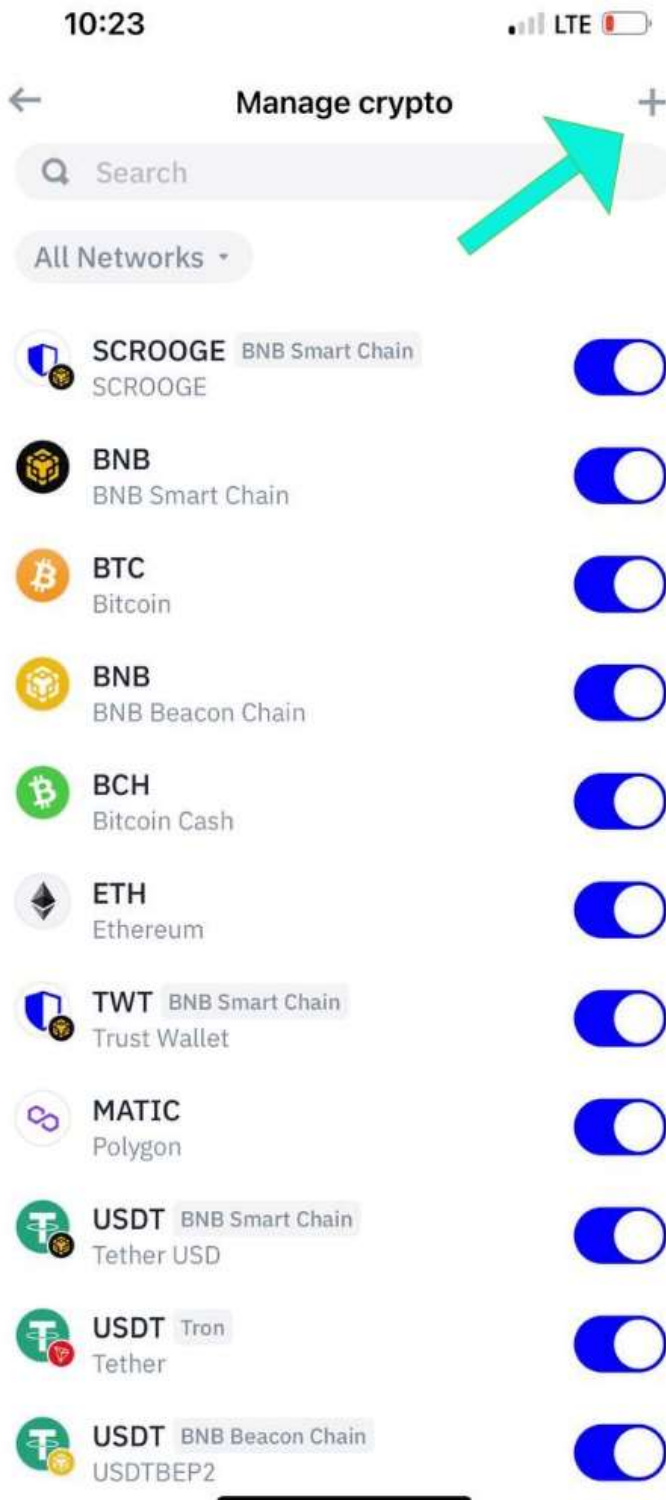

Exchanging Scrooge To USD:

This process requires users to have an existing small amount of BNB smart chain coins for blockchain/network fees. If you do not have any, it can be purchased from exchanges and sent into the wallet, or through options inside trust wallet as well. \$1 should be plenty to complete the entire process.

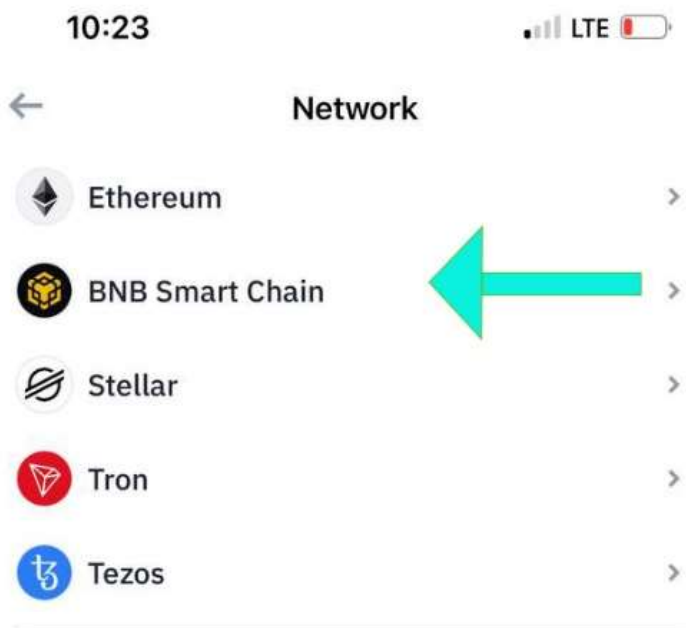

1. Open Trust wallet or other app you used to request redemption
2. Scroll down on home page and select "Manage Crypto"

3. Select the + sign in top right corner

4. Switch from Ethereum to BNB Smart Chain

5. Paste the Scrooge Address in the contract field and click "Import"

Import

6. Open the browser inside Trust wallet App

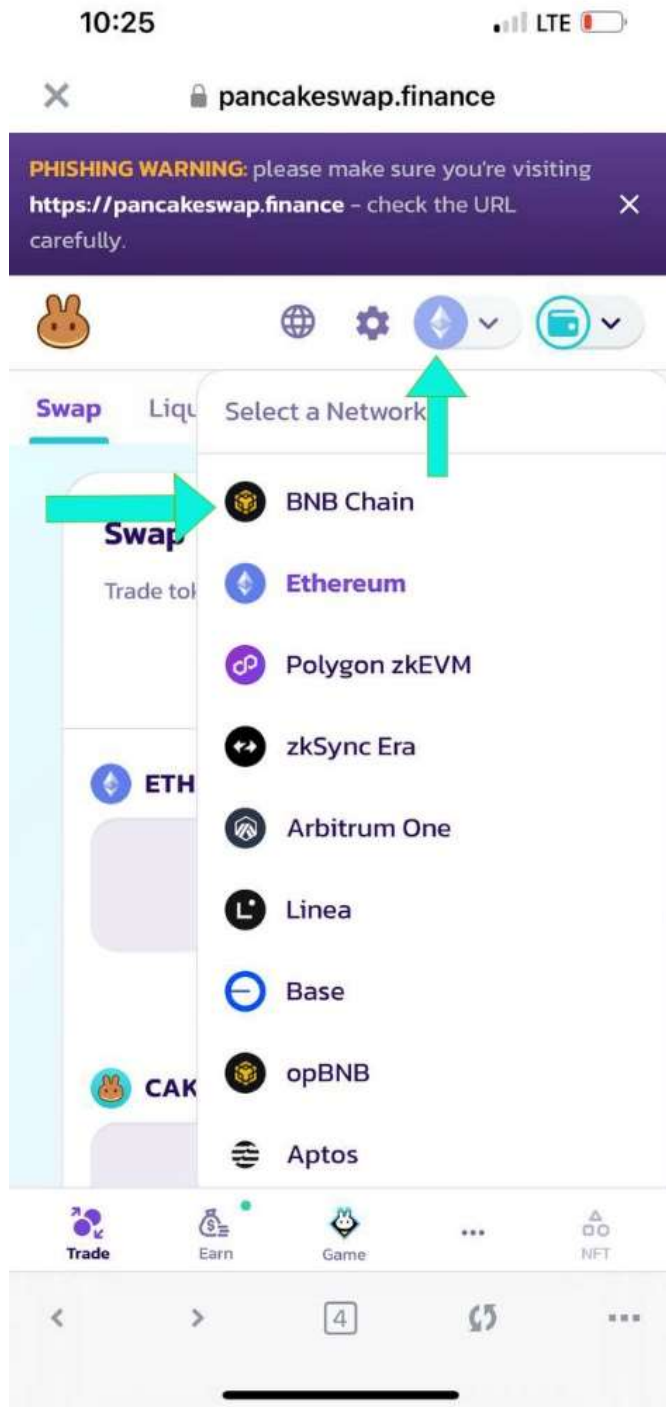

7. Visit Pancakeswap.finance and connect wallet to the site

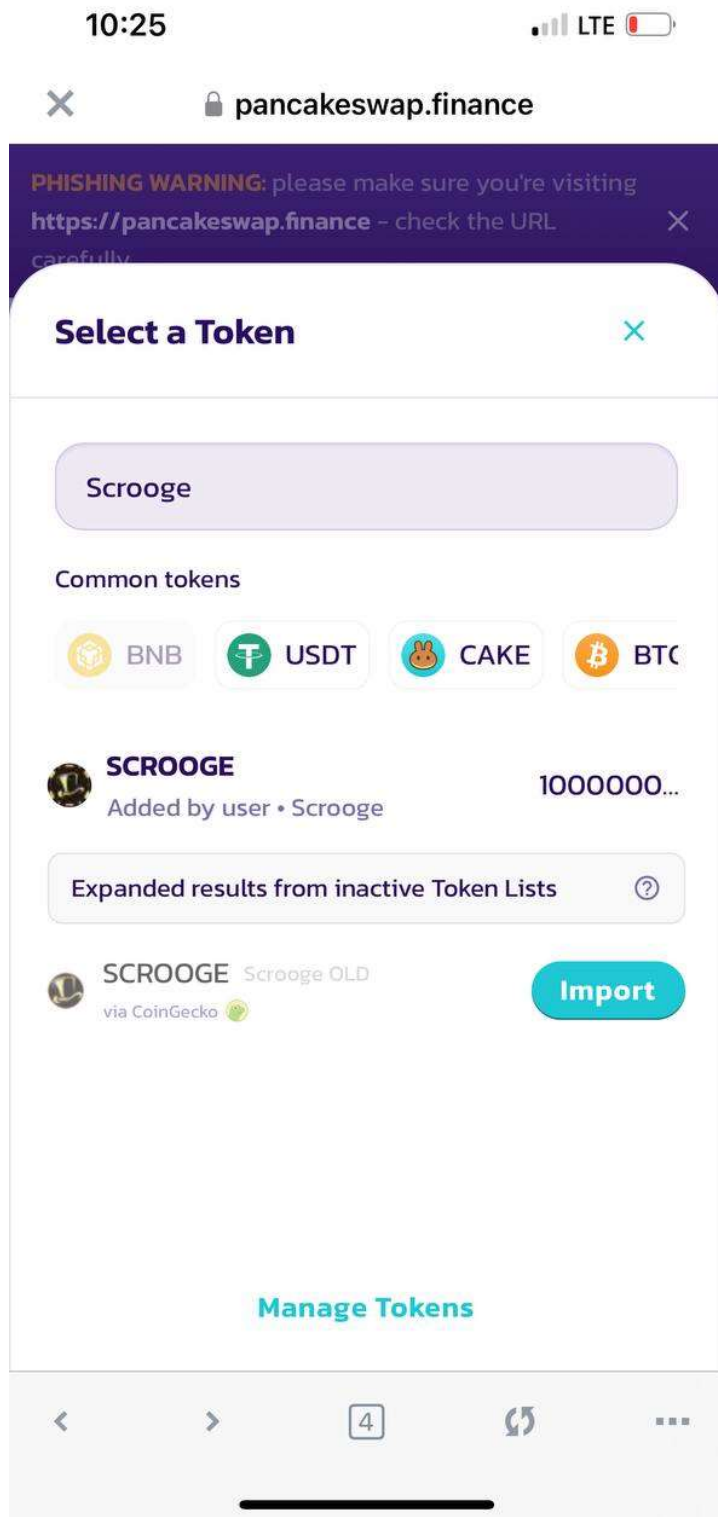

8. Scroll down the home page and click "Trade Now"

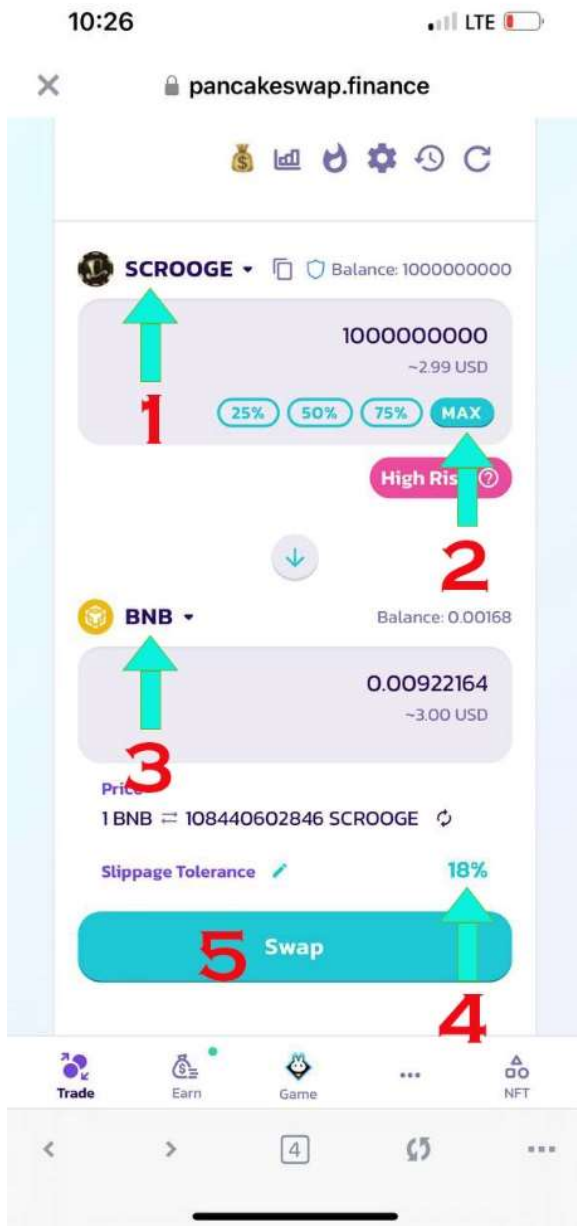

9. Ensure the network is set to BNB Smart Chain and not ETH

10. On the top Coin choice, search for and select Scrooge, the one that does not say "old" beside it and click import

11. Select the amount of scrooge you wish to swap

12. On the bottom coin option, select BNB

13. Click the pencil icon and Type 18 in the right box for adjusting Slippage Tolerance

14. Click "Swap" and approve through all the prompts

Once you have the coins swapped into BNB, the easiest solution to off ramp is to have a Crypto.com (<http://crypto.com/>) account.

1. Inside Crypto dot com, click "Deposit" and select "Crypto"
2. Select Binance Coin (BNB)
3. Ensure "BSC" is the selected Network Version and copy your address
4. Inside Trust wallet, click "Send" and paste the address from crypto dot com in and select BNB and execute the transaction,

Once your BNB reaches Crypto dot com, you can choose to sell and withdrawal to bank account, or you can get a Visa card that you load the crypto on. This card can be used exactly as a Visa in regular store, accepted anywhere Visa is accepted.
